Baseball Team Drops Opener; To Play Roseville

Lack of Practice Shows as Grass Valley Wins 16 to 6 Sunday

The Truckee-Tahoe baseball club and a large delegation of fans opened the 1950 season at Grass Valley Sunday with the local club on the short end of the 16 to 6 score.

The short score showed Grass Valley with 14 hits to eight for Truckee. Each team was charged with four errors and since Grass Valley had runners on bases when the local fumbles occurred, the boots were more costly to the local boys.

Grass Valley scored 15 runs in the first five innings. Then Manager Larry Baxter shifted his players around and the home team was held to one run in the last three frames.

Karl Kielhofer started for Truckee and was relieved by John Wilson in the third after seven hits were tallied. Wilson couldn't get the side out and Fred Crockett took over, allowing four hits in three and two-thirds innings and finished the game.

Eddie Ulsheimer scored three of Truckee's runs without a safe hit. Bill Martin led the team in hitting with 2 for 2 and two runs batted in. Faight looked good on second and had three for five at bat. Christie was powerful at the plate and accounted for a triple. Not so long ago, another Rablin, John Sr., was pulling flies out of left field for Truckee and with a little more practice, his son, John Jr., will be a permanent fixture in the local lineup.

Saturday night the Truckee-Tahoe team goes to Roseville to meet the strongest team of the league. Another large crowd of fans is expected to see this contest.

J. Trathen pitched the full game for Grass Valley Sunday. Capps, Miner outielder, was the hitting star, getting 4 for 6.

Opening ceremonies by the American Legion and its drum and bugle corps were impressive and enjoyed by the large crowd.

The game marked the first time the Truckee team has played as a unit and aside from a lack of practice, they did well and gave all indication of developing into one of the top teams of the league.

District Plans Extension After Deal Complete

Negotiations Under Way With Sanders, S.P. For System

A three way deal is under consideration by the parties concerned, in which the Southern Pacific Company would purchase the land and water rights of the Sanders Water System from Joseph H. Sanders, owner, and the Truckee Public Utility District would obtain the customers of that company and extend its system to serve them.

The Sanders Water System serves about 15 customers, located east of Trout Creek and along the north bank of that stream. The system's source of supply is the Southern Pacific's reservoir on the hill north of town and the water is obtained from Trout Creek, supplemented by pumping from the Truckee River. The Southern Pacific Company chlorinates the water for domestic use.

The directors of the district have gone on record as opposed to paying any sum for the customers involved as it will cost the district approximately $1800 to extend its mains and connect these new customers to its system, Manager C. Edmunds said. A number of the Sanders System customers have for some time been requesting the district to serve them, Edmunds reports.

The district has a four inch main extending into the area served by the Sanders System on which hydrants are placed for fire protection. Due to this main being laid across Trout Creek Bridge, there has been danger of it freezing in the winter and it is closed off by a valve on the west end of the bridge during the winter months.

Arrangements must be made to protect this main in the event it becomes necessary to keep water in it throughout the year to serve domestic customers. The district would also have to lay new services and install meters to most of the customers.

The Southern Pacific Company has been advised of the district's position and the final decision rests with that company, Edmunds concluded.

Progressive merchants use newspaper advertising. Check the firms you know and see for yourself that there are few, if any, exceptions to this rule. It has never been quite clear to us whether it is because the merchant is progressive that causes him to advertise or whether the advertising makes him a progressive business man, but we do know conclusively that the two go together—advertising and progress. Buyers are sure when they patronize a firm that uses newspaper advertising that they are dealing with a concern which is alert and anxious to serve. Check your local ads weekly in the Sierra Sun and you will agree with us that advertising and progressive merchandising go hand in hand.

The Truckee-Tahoe baseball club got away to a rather bad start in the opening game Saturday but observers who take into consideration the fact the local boys have been handicapped for practice and were up against a team which has had very good spring training, will agree that we have a good ball club. In collecting six runs, the locals demonstrated their ability to win games and with a little more work together, we can now promise a team of more than passing ability. Give the club your support and watch the results.

New Road Plan Effective After Action Of Board

Supervisors Stripped Of Authority on Roads By Resolution

At their last meeting, the Nevada County Board of Supervisors passed a resolution establishing the general policies of the board in conformation with the terms of the Burns-Collier Act which takes the direction of highway building and maintenance from the individual supervisor and places it in the hands of a road commissioner.

In Nevada County, the road commissioner is J. F. O'Conner, county surveyor.

The primary function of the board under the act is to adopt a budget which shall be presented by the road commissioner, making any necessary alterations.

The construction, improvement and maintenance of all county roads as authorized in this budget shall be under the sole direction of the road commissioner and the commissioner shall have full direction over the employees and their various duties as well as being responsible for the road equipment. The supervisors have power only to regulate salaries and purchase or rental price of equipment.

The board is limited to inspection and an individual supervisor is not authorized to give any order, either written or oral, or make any suggestion to the road commissioner or other employees regarding construction, improvement or maintenance.

While this act has been in effect for the past several months, the resolution passed by the board is the first definite policy set forth, Supervisor H. G. Loehr said.

Loehr pointed out that under terms of the act, O'Conner is solely in charge of road work and maintenance here as well as in the other four districts of Nevada County.

The full resolution follows:

NEED $110,000 FOR WATER SYSTEM AT DONNER LAKE

Methods of financing a proposed $110,300 water system to serve property owners in two units at Donner Lake was discussed by directors of the Truckee Public Utility District, Dean Kingman, associate engineer for L. Cedric Macabee, who is retained by the board, and Leland Nisbet, representing the Armstrong Realty Company.

A. J. Judge, secretary of the Donner Lake Company, who also attended the meeting, said he would submit to his board the conclusions and recommendations of the utility district and advise them of the outcome.

For the purpose of planning the financing, the area included was divided into three units, the first to embrace Donner Village, Donner Ski Haven, Donner Woods Nos. 1 and 2 and Donner Villa Tract No. 1. The engineers have estimated that to serve this area with water to the property lines, including installation of an auxiliary pump, cleaning and fencing of Green Point Spring area and covering a 28,000 gallon tank now being used, would cost $45,200, Manager C. Edmunds reported.

Seek Advance

The local directors suggested this sum be advanced by the Donner Lake Development Company and the utility district would agree to refund 35 per cent of the gross revenue until the sum was repaid or for a period of ten years, at which time any remaining unpaid balance would revert to the district.

The second unit considered comprises some 100 lots in the Green Point subdivision and with the same service provided for the first 50 lots, the cost would be $7,500, it was estimated.

Thus, the total cost for the first two units would be $52,700. After construction is completed to this amount all further liability in serving these units would be assumed by the district, Edmunds said.

Assessment District

Unit No. 3 covers Lake View subdivision, Lake View Extension subdivision, Donner Pines Tract, Donner Pines Tract Extension and Donner Camp Bucknam Tract.

The cost of mains to serve this area was estimated at $58,600. The service would come from the Green Point Springs with a supplemental pumping station at the east end of the lake.

Since no commitment to serve this unit with water has been made, the local directors proposed that an assessment district be set up to raise the money required.

Plans are being made now, it was reported, to lay out still more subdivisions at both ends of the lake and these, it was suggested, could also be financed under an assessment district.

SUPERVISORS BUSY AT APRIL MEETING WITH LAKE AFFAIRS

AUBURN— A considerable portion of the April session of the Placer County board of supervisors was taken up with business directly relating to the Lake Tahoe portion of the county, a study of the recorded proceedings of the board indicates.

A reslution was passed granting the North Tahoe Public Utility District permission to install a sewerage system and to open streets.

Since no opposition appeared, a petition by Harold H. and Vey M. Young to rezone and reclassify Lots 103 and 104 of Lakeside tract at Homewood from single family to multiple, the district attorney was instructed to draw up the necessary ordinance.

A petition was received from 81 persons relative to purchasing and maintaining snow removal equipment for operation in the area from Carnelian Bay to the state line. The matter was referred to the road commissioner to outline the problem and efforts are being made to secure funds through the state legislature, due to the inability of the county to meet the costs in both labor and equipment for snow removal and and maintaining the regular county roads.

Ruth Hoffman was appointed as librarian of the Tahoe branch of the county library.

GOOD RESPONSE IS NOTED AT TAHOE IN CANCER DRIVE

TAHOE CITY— Mrs. John D. Burns, chairman of the Tahoe area drive for the American Cancer Society, reports that the drive has received good good support thus far with generous contributions from permanent and summer residents.

An excellent response also was found at the Tahoe Lake School, where teachers, administrators and pupils followed classroom discussions of the symptoms and dangers of cancer with donations toward the fund. All pupils were given the red sword insignia and pertinent pamphlets of the society.

An unanticipated and welcome donation was the result of an impromptu appeal by William McKenzie, of the peninsula, who told Squaw Valley visitors of the local drive. A hat was passed which netted $32. This was turned over to the Village Store where it was picked up and added to the Cancer Crusade fund.

Patrolman Returns—

Mr. and Mrs. Clarence S. Beavers and family have returned to Lake Tahoe after spending the winter at Redding. The former will again be patrolman for the U. S. Forest Service this season.

LOTTERIES ARE OUT AS ADS OR NEWS IN SUN'S COLUMNS

The Sierra Sun's attention has been called to the fact that under the rules and regulations established by the Postofice Department it is illegal to publish news stories or advertising mentioning "lotteries, gift enterprises or schemes of any kind offering prizes dependent in whole or in part on lot or chance."

The postal department has ruled that it is not a lottery when the tickets or gifts are handed out to all comers without obligation.

Door prizes are lotteries when admission tickets are sold and hence the Sun must not mention door prizes in its columns.

Advertisers who offer gifts "free" may mention them in their ads, but all "gifts" that result from any obligation whatever must not even be referred to in the paper.

The penalty for violation is a fine not to exceed $1000 or imprisonment not to exceed two years, or both, plus barring the newspaper from the mails.

Returning to Tahoe—

Mrs. Anna Blaue has left Hollywood and is visiting at Glendale, Arizona, before returning to Tahoe Vista for the summer.

RETURN TO LAKE

Mrs. M. J. Shontz of Tahoe City has returned from a visit with her parents, the D. M. Brodehls of Lodi. Mrs. Evelyn Bliss has returned to Tahoe City from Oakland where she spent the winter.

North Tahoe

by T. BURROUGHS

The Rotary District conference at Sacramento April 16, 17 and 18, with headquarters at the Senator Hotel, was attended by delegates from 37 different Rotary clubs. Right after breakfast on Monday, activities got underway. There was the golf tournament wherein Gil Ballard proved his skill, coming in for first place and winning honors. In the trap shooting event, Tom Sutton hit the bull's eye 24 times out of 25 and Andy Sorensen made the next best showing with 23.

Our Brockway Club passed out its 600 or more bottles of pure Lake Tahoe water with labels depicting the finest points of interest in this area. Open house was enjoyed from 2 to 6 on Monday afternoon. Square dancing followed in the evening, attracting lots of attention to those participating. Awards were presented during the evening. Brockway Rotary was awarded the highest honors for having a 100 per cent registration with the largest number of members traveling the greatest distance. There was a cocktail hour followed by luncheon then a style show for the ladies at El Rancho.

At the Senator, our Brockway group enjoyed privileges of a huge parlor assigned for its use. It was a gay time for all who were able to go. Attending from the Brockway area were Don Barkhurst, Tom Lucas, Bill Randall, Rube Welch, Pappy Brooks, Sam Faulkner, Marion Dodd, Roy Porath and Messrs. and Mesdames Dick Lavery, Gil Ballard, Tom Sutton, H. M. Holmes, Rogers Colton, Mulford Miles, E. J. Stokes, Bud Mandeville, Don Bowman, Andy Sorensen, Earl Nelson and Clare Walters. The new district governor will be Walter Jensen of Lincoln.

Little Dorothy Mercer, promising young ski student, was seriously injured while skiing at Gralibakken last Friday with a group of children. Dorothy was taken to Reno where surgery was performed late that night. She is now resting at St. Mary's Hospital and her mother remains there with her. It is hoped she will be well enough to come home this weekend.

The Girl Scouts of North Tahoe with invited friends had a wonderful time at their dance which took place last Saturday night at Dr. Keys' Tahoe Vista Resort. The place was decorated in yellow and green. On the dance committee are Patsy Meisenheimer, Karen Decker, Delores Rood, Diana Abbott and Diane Rutledge. Proceeds from the sale of soft drinks and sandwiches will go into the treasury towards the eventual purchase of uniforms. Adults in attendance were Mr. and Mrs. Arney, Minnie Wagner, Peggie Mandeville and Audrey Welch.

"Our scrap book work is coming along fine," say the Girl Scouts.

vwAgainthoDsofyioSd.Ao|a(EFvn

Cloy Sipes is at home after a short stay in a Carson City hospital.

According to Tex, the Joneses will have some remodeling done right away and will include a new sleeper (bedroom) for their resort.

Welcome home, Winifred and Carol Rapier! Looks mighty good to see some activity over your way and your cheerful hello is like music in these hills.

Last weekend saw a ot of traffic around the lake. Many city folks are out looking for that ideal spot for a summer vacation.

Patsy Dickow and David Decker are reported on the sick list this week. Don't worry, kiddies, you'll be as good as new in a few days.

RESOLUTION

(Continued from Page 1)

Upon motion of Supervisor Loehr, duly seconded by Supervisor Rowe, and carried by unanimous vote, the following resolution was passed:

A Resolution Establishing the General Policies of Nevada County as to County Highway Matters

WHEREAS, Section 2009 of the Streets and Highways Code of California provides that the Board of Supervisors shall determine the general policies of the County as to County Highway matters;

PURSUANT TO SAID AUTHORITY BE IT RESOLVED AS FOLLOWS:

1. That the primary function of the Board of Supervisors regarding highway matters is to adopt a budget covering all proposed expenditures for county road purposes during the ensuing fiscal year. The road commissioner shall prepare a tentative budget for this purpose pursuant to the provisions of Section 2007 of the Streets and Highways Code. In adopting the county road budget the supervisors shall consider not only the needs of supervisorial district but those of the county as a whole, and also the relation of the county road system with that of the state.

2. The construction, improvement and maintenance of all county roads as authorized by the annual budget is vested solely in the road commissioner. The road commissioner in his sole discretion has control over the number of road department employees, and the time and place of their employment, and also the control of the time and place of employment of all road equipment, subject only to the authority of the board of supervisors to approve salaries of employees and the purchase or rented price of equipment.

3. The function of the board of Supervisors pursuant to the provisions of Section 2010 of the Streets and Highways Code is limited to inspection. An individual supervisor is not authorized to give any order, whether written or oral, or to make any suggestion to the road commissioner or any road department employee regarding the construction, improvement or maintenance of any county road, or regarding the number of employees, the time and place of their employment, or regarding the control and the time and place of employment of road equipment.

4. At such times as the board of supervisors may from time to time require, the road commissioner shall make a report, either written or oral, regarding the construction, improvements and maintenance of county roads as authorized by the budget for the current fiscal year. All such reports shall be submitted at regular meetings of the board of supervisors.

Passed and adopted on the 4th day of April, 1950, by the following vote:

Ayes: Carl J. Tobiassen, Frank J. Rowe, J. C. Coughlan, W. E. Odell, Henry G. Loehr.

Tahoe Area Constables Unique in Politics

TAHOE CITY— Constables Harry Johanson of Tahoe City and Richard Lavery of Kings Beach are two of three candidates for contable in Placer County townships who will have no opposition on the June 6 primary election ballot, a study of filings reveals.

Elsewhere in the county, Roseville and Lincoln voters have a choice between two candidates for the offices in those communities. Auburn, Alta, Forest Hill, Loomis and Colfax have three candidates each. Thomas A. Sparks Jr. in Newcastle is the only other unopposed candidate for constable in the county.

Cal-Neva Sat'd'y Nights Require No Minimum

CAL NEVA— To correct an erroneous impression which has been received by several people, the management of Cal Neva Lodge emphasizes that there is no minimum charge nor admission fee for their special pre-season Saturday nights. The advertised $1.50 is for dinner patrons. The Saturday night affairs also feature dancing, games and bar service.

A freak snow storm recently upset plans for the evening when two temporary chefs were stalled for four hours en route from Reno. With the continuantion of spring weather, a repition of this disruption is unlikely, the management states.

Pack Melts, Lake Rises In Warm Weather

TAHOE CITY— Tahoe's weekly precipitation was feeble last week and while the temperature took one dive to the 10 degrees mark on April 14, the trend has been a general return to the clear warm days prior to Easter. Maximum temperature for the period April 9 to 18 was 59 degrees April 17.

Total precipitation occurred on Tuesday, April 13, with .14 of an inch and two inches of snow recorded between 5 a.m. and 6 p.m.

The snow pack in town is showing the effect of the warm sun. The pack depth dropped from 19 to 13 inches in the 24 hour period between April 17 and 18. Lake level rose .15 of a foot in the past week and Monday stood at 6225.25.
